

## AC-020 500 User Two Door Controller

### FEATURES

- 500 Users per door
- Supports two 26 bit Wiegand Readers (Reader In/Rex Out per door)
- Request To Exit (RTE) Input
- Tamper Alarm
- Built in Bell Feature
- Three modes of operation
  - Normal
  - Bypass
  - Secure
- Programmable bell time
- Programmable lock release time
- CE, UL and FCC approved

## Access Control

### Technical Specifications

#### Electrical Characteristics

Operating Voltage:  
16V AC @ 25VA  
12V DC @ 1.5A

Input Current @ 12V DC:  
Standby: 100mA  
Max: 1.5A

Lockstrike Outputs:  
Programmable for fail-safe or fail-secure operation rated at 12V DC @ 600mA per door

Inputs:  
REX Normally Open Dry Contact per door

#### Environmental Characteristics

Operating Temperature Range:  
0 ° C to 50 ° C

Humidity:  
0 – 95% (non-condensing)  
Internal applications only

Dimensions:  
134mm L x 85mm W x 30mm D
